

Claim 24 (currently amended). A m[M]ethod of recording vehicles [(72)] with a position determining system [(74), when using roads (10)], as claimed in [anyone of the] claim[s] 13 [to 23, **characterized in that**], wherein a tolerance range is fixed in which activation [an] or de-activation, respectively, of the recording of [a] the detected vehicle is effected.

REMARKS

By the above Amendment Applicants have placed the above-referenced application in better condition for further Examination.

Early Examination of this Application is respectfully requested.

Respectfully submitted,

SILBER & FRIDMAN
